

TIGER TRANSPORT

TRANSPORTER OF

DRY FLY ASH, LATERITE, OPC - CEMENT, and GGBS

HORIZON SERVICES

Supplier of

Dry Fly Ash, Laterite, OPC - Cement, and GGBS

TIGER TRANSPORT

HORIZON SERVICES

SUPPLIER OF DRY FLY ASH, LATERITE, OPC - CEMENT, and GGBS

We are leading transporter & supplier of high quality Dry Fly Ash, OPC-Cement, GGBS & Laterite for more than a decade with three distribution terminals from Chennai, Mettur & Tuticorin. we are one of the major supplier for industries like Cement Plant, Ready Mix Concrete, AAC Block, CLC Block, Fly Ash Brick, Blocks, Inter Lock Blocks, Pavers & Building Contractors .

SOURCE OF DRY FLY ASH

- North Chennai Thermal Power Station, Stage -1(NCTPS-1, Attipattu)
- North Chennai Thermal Power Station, Stage - 2(NCTPS-2, Attipattu)
- NTPC Tamilnadu Energy Company Ltd (NTECL, Vallur)
- Mettur Thermal Power Station, Stage -1(MTPS -1, Mettur)
- Mettur thermal power station, Stage -2 (MTPS -2, Mettur)
- NLC Tamilnadu Power LTD (NTPL Tuticorin)
- Tuticorin Thermal Power Station, Stage -1(TTPS -1, Tuticorin)
- Tuticorin Thermal Power Station, Stage -2 (TTPS - 2, Tuticorin)

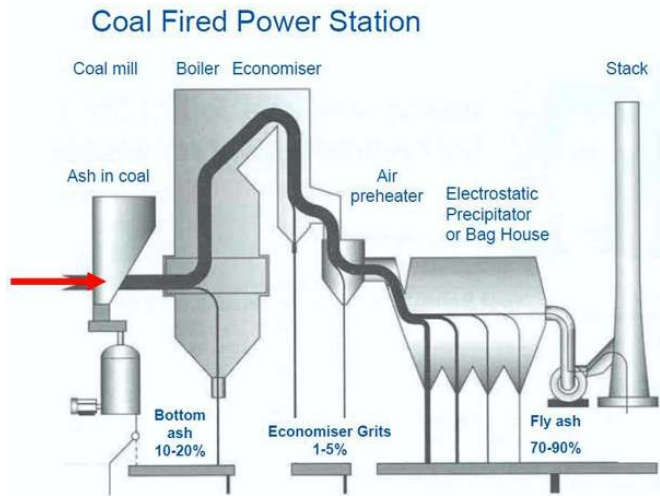

Providing Sustainable Materials for Cleaner Future

Where Fly ash Comes From

Fly ash is a by product of power generation in coal fired power stations. Within a power station, coal is fed to a series of mills that pulverise the coal to a very fine powder. This powder is then fed into a boiler which combusts the coal to produce heat, that is then used to produce steam required for power generation. During the coal combustion process, minerals in the coal fuse to form glassy aluminosilicate spheres. These spheres remain in suspension within the flue gas from the boiler and are ultimately collected downstream by either electrostatic or mechanical precipitation.

At our various operating sites, Cemix selectively collects fly ash and subject to rigorous testing, further refines these collected materials to produce quality fly ash products meeting the needs of our customers.

Fly Ash is suitable for a wide variety of applications and uses.

- Premixed Concrete ● Precast Concrete ● Concrete Road Pavements ● Stabilised Road Base ● Roller Constructed Concrete Dams
- Roller Constructed Concrete Pavements ● Shotcrete ● Concrete Masonry ● Flowable Fill ● Mine and Land Fill ● Geopolymer Concrete
- Cement Plant ● Ready Mix Concrete ● AAC Block ● CLC Block ● Fly Ash Brick ● Blocks ● Inter Lock Blocks ● Pavers & Building Contractors

LATERITE

Laterite is soil type rich in iron, formed in hot and wet tropical areas. Laterite is rusty-red in colour because of iron oxides. It is developed by intensive and long-lasting weathering of the underlying parent rock. Tropical weathering (laterization) is a prolonged process of chemical weathering which produces a wide variety in the thickness, grade, chemistry and ore mineralogy of the resulting soils.

Applications : Cement Industry ● In manufacturing of Clinker ● Extraction of Iron ● Plastering ● Roads ● Painting ● Cladding

PROVIDING SUSTAINABLE MATERIALS FOR CLEANER FUTURE

CLIENT LIST

- THE RAMCO CEMENTS LIMITED, SALEM.
- THE RAMCO CEMENTS LIMITED, CHENGALPET.
- THE RAMCO CEMENTS LIMITED, ARIYALUR.
- CHETTINAD CEMENT CORPORATION LIMITED, PULIYUR.
- CHETTINAD CEMENT CORPORATION LIMITED, KARIKALI.
- CHETTINAD CEMENT CORPORATION LIMITED, ARIYALUR.
- DALMIA CEMENTS (BHARAT) LTD, DALMIAPURAM.
- DALMIA CEMENTS (BHARAT) LTD, ARIYALUR.
- ULTRATECH CEMENT LTD, ARAKONNAM.
- ZUARAI CEMENT, VALLUR.
- INDIA CEMENTS LIMITED, VALLUR.
- BASKAR CEMENTS, KARUR.
- APOLLO CEMENTS, CHENNAI.
- VIJAY CEMENT, TRICHY.
- V.I.P. CEMENT, VILLUPURAM.
- VAMANA CEMENTS, SALEM.
- PERIYAR CEMENT, PALAKKAD.
- DIMOND CEMENT, PALAKKAD.
- EUROTECH CEMENT, PALAKKAD.
- KAIRALI CEMEN, PALAKKAD.
- HYDRABAD INDUSTRIES LTD, CHENNAI.
- HYDRABAD INDUSTRIES LTD, TRISHUR.
- RMC INDIA, COCHIN.
